

We have two open position in Phoenix and possibly one opening up in Tucson for Early Childhood Teachers to work with deaf/hh infants and toddlers and their families. We provide most of our services within natural environments but do supplement with center based toddler classes at 18 months of age. Our program supports families in all communication options although the majority of our families are choosing listening and spoken language so students/teachers with some knowledge of listening and spoken language strategies is preferred. We are a growing statewide program with currently 17 full time passionate teachers and are looking for additional teachers to join our team. In an effort to recruit we are accepting teachers in an alternative pathway so would even consider hiring the right student during their student teaching/practicum experience with a commitment to stay with the program for at least a year following graduation. We feel confident once someone joins our team, they will want to stay!

I've attached a fairly non descriptive job announcement below so please feel free to put anyone in touch with me about these open positions. We are hoping to fill these positions by **January 2018**.

Thanks for any help you can provide.
