The Children's Hospital of Philadelphia, the #1 children’s hospital in the United States, strives to be the world leader in the advancement of healthcare for children by integrating excellent patient care, innovative research and quality professional education into all of its programs. The Hospital was one of the first in the United States to recognize the importance of treating all aspects of the patient, including emotional well-being and that of the child's family. We work to educate families as partners in their children's care, and we rely on their feedback to improve our services.

At The Children's Hospital of Philadelphia, we provide an environment that’s as nurturing as it is dynamic. Our team-oriented approach allows for ample learning and career growth opportunities. We think you'll find that CHOP offers the ideal atmosphere in which to best use your skills and talents. We are eager for your input, ideas and inspiration.

About the Department: Our Department of Audiology commits to being the world leader in helping children reach their full potential by delivering integrated family–centered clinical care, innovative research and quality education in childhood communication and its disorders. We believe those exceptional team members, a supportive environment, state-of-the-art care, and well-defined goals are the keys to nurturing both patients and professionals.

Position Description: Responsibilities include audiological assessment, aural rehabilitation, equipment maintenance and calibration, teaching, and research. The audiologist also participates in the ongoing development, revision and refinement of clinical procedures and protocols.

Position Requirements: Audiologist candidates must have:

- High level of analytical skill in order to work independently to identify and plan for the resolution of problems encountered in clinical and research duties.
- Certificate of Clinical Competence or Board Certification in Audiology.
- License in Audiology from Commonwealth of Pennsylvania and from State of New Jersey, or eligible for same, in which case licensure will be obtained within 3 months of initial employment.
- Masters Degree or Doctorate (Ph.D. or Au.D.) in Audiology.

Mandatory Requirements: All CHOP employees who work in a patient building or who provide patient care are required to receive an annual influenza vaccine unless they are granted a medical or religious exemption. Also required are: Child Abuse Clearances, FBI Fingerprint Clearance, and Drug Screening.

The Children’s Hospital of Philadelphia is an equal opportunity employer. We do not discriminate on the basis of race, color, gender, sexual orientation, age, religion, national or ethnic origin, disability or veteran status.
