

MINOR IN SPEECH AND HEARING

The Minor in Speech and Hearing is designed for students interested in exploring topics related to human communication. Coursework provides an overview of the fields of hearing, deafness, language, and speech, with opportunities to explore related topics in more depth. This minor is especially valuable for students in fields such as psychology, education, philosophy-neuroscience-psychology (PNP), and linguistics, but has broad applicability for many fields of study. Coursework completed as part of this minor can also be used to fulfill some prerequisites for graduate studies in audiology, deaf education, and speech-language pathology.

FALL COURSES:

- PACS 234: Introduction to Speech, Language, and Hearing Sciences (3 hours)
- PACS 344: Observation and Methods in Speech-Language Pathology (3 hours)
- PACS 360: Audiology (3 hours)
- PACS 401: Anatomy and Physiology of Speech and Hearing (3 hours)
- PACS 4301: Sign Language I (2 hours)
- PACS 434: Typical Language Development (3 hours)
- *LING 170D: Introduction to Linguistics (3 hours)*

SPRING COURSES

- PACS 234: Introduction to Speech, Language, and Hearing Sciences (3 hours)
- PACS 324: Acoustics and Speech Perception (3 hours)
- PACS 4301: Sign Language I (2 hours)
- PACS 4302: Sign Language II (2 hours)
- PACS 443: Speech and Language Disorders (3 hours)
- *LING 170D: Introduction to Linguistics (3 hours)*
- *LING 312: Phonetics (3 hours)*

REQUIREMENTS:

The minor requires a minimum of 15 units that focus on the study of speech, language and hearing, of which 3 hours must be PACS 234. Of the 15 hours, at least 9 units must be at the 300 level or higher and at least 9 units must be offered by the department (M89 PACS). Courses to count toward the minor must be selected from the courses listed below or approved in advance by the minor advisor
